

THE WAY OF GETTING A RAISING

September 20, 2024

3:38 p.m.

YAHWEH SAYS IT:

This person is not here, but the flesh tent is still the making of the person. Yahweh will merge the dead—spirit, soul with body. This person's soul is either in Heaven or the Hell. A symbol on a gravestone will not have a leading to where that person stays in the death phase. Only Yahweh knows where the person's spirit and soul lie in wait for the judgment way or the Bema Seat. But this grave is only given for demonstration purposes, and no ill way is placed upon whoever is in this grave in the death phase.

"Show power by demonstration," they say. But they do not think that Yahweh will actually take action anyway. Why pray? Why give long-winded sayings to make you appear more important? What is Yahweh looking for? Clean hands and a pure heart. Can you see if this buried dead person has clean hands and a pure heart where they are? No. Only

Yahweh can tell where this person stands in the death way. And it is important to understand this way.

What human can bring a really dead person back to living ways? No human can. I said "really dead" to show a difference in what the people claim as being dead. They say someone just dropped dead. But then they prayed, and the person entered their flesh tent to live again. The people think that there was a real miracle, but who can say with confidence that the dead person was really dead? Even the one who prayed may still wonder if they were seeing a miracle. What if Yahweh takes away all doubt? Look at how that grave is. Can you lift them up to living ways again?

These "faith workers" say they can speak things into existence just like Yahweh. They say they carry My traits and are My clone in image. They say they are little anointed lowercase gods who can move in the same power that Yahweh governs the universe with. You, fake, lowercase god, come to this grave and raise this buried dead plan with a spoken word of declaring and decreeing. You are living in a great delusion. No one who lives on Earth can raise up a buried dead person with their own strength. And no one can make Me do their bidding.

To raise a person from the buried dead will require a covenant with Yahweh. Yahweh would have to give a plan that overrules how the person lives in the death phase. Yahweh has to give the final say as well as have it be My plan. Yahweh is the Governing Agent in the way a soul is kept under a death spirit.

There will be a raising of the buried dead when the resurrections take way. Would it be possible to pray to Me, Yahweh, and seek My will on praying for a buried dead person to return to living ways? What if I trained a servant to look at how that way would take way? This book is not to make you believe in a human and their own plan. What this short training plan on Death is yielded for is to bring an awareness to how serving Yahweh with covenant backing can bring forward any level of created work. Here is the key: I,

Yahweh, must be petitioned. I can, only, raise up any dead one, whether above the earth or decayed in the sea. I, Yahweh, will be able to do this for the resurrections. What would that trait look like if yielded out in today's living? With that level of Yahweh revealing Himself, no one is safe without first coming into My presence with clean hands and a pure heart.

Be aware. They say they want to "feel Me" in their presence, yet they live unholy living. Grace covers them and keeps them safe from dealing with My anger. But be aware. The coming season of the reigning of the antichrist will carry graceless placings when I yield out judgments upon the earth. Great power will require clean hands and a pure heart. Don't pretend to be a carrier of Yahweh's way. One day, the way of testing will hit the churches, and those who walk like Simon the Sorcerer will be exposed.

Take a look at Yahweh in a new way, a way to hold reverence and honor, as no one is like Yahweh.
