

THE VOICES OF THE TRINITY

November 29, 2024

10:53 p.m.

YAHWEH SAYS IT:

There will be great controversy with this document. It isn't Yahweh's intention to clarify how the Godhead functions, not in this. But let's lay a general ground rule for how we will look at the Three Distinct sharing one essence. They all carry a Person-ship, not based on a human way but on a distinct way of engaging each other and carrying out traits branded per Member in the Godhead.

No Modalism doctrine leads here. The Father does not take on the Son plan, and the Son does not turn into the Great Holy Spirit. King Jesus always existed. King Jesus created all that is visible. Nothing exists without King Jesus making it so. No human can carry God traits and be a God like Yahweh is. No human carries a divine placement. No human can create matter. Yahweh stands alone. Only King Jesus within the Godhead took on flesh and bled. In the incarnation, King Jesus took on flesh, a general way in a Hypostatic Union; fully staying God while taking on flesh. Only the Great Holy Spirit can be blasphemed.

The office placements given to the Church stem from King Jesus. The spiritual gifts of the Great Way and the Great Holy Spirit are under the will in distribution as the Great Holy Spirit wills it. And only the Great Way (Jesus) can save with His blood, shed on the cross.

VOICES OF THE GODHEAD

Can Yahweh have a different way of saying, using a unique brand to have a wording communicated? The Three Persons have a distinct way of saying that differentiates One from the Others. Let Me give a clearer breakdown of the points. You, dear reader, are unable to tell which Member carries a leading in this saying when reading these words based on how you cannot hear Me. And if I did say a word, would it be revealed that you are hearing the way to live from Yahweh in direct hearing ways? Who would tell you that the voice you hear should be weighed as Yahweh? Who would be the weighing member of your group?

No human has a way to declare Yahweh speaks to them without yielding proof. How would proof come? The words spoken in the name of the LORD will not fall to the ground.

When King Jesus says words to a human, the words heard will not sound like the person who hears the words. Direct communion is hearing Yahweh speak in direct ways in real-time living. King Jesus is speaking in today's world. His voice will sound like hearing words spoken in a tunnel with incredible acoustics without echoing. The sound from His words spoken are heard in multiple layers, a layering of the sounds of His voice coming out to the hearer as if not a single voice; a vibration of sound rushing across yet clearly spoken as words.

The Great Holy Spirit has what is categorized as a "male" voice, low in sound yet not booming in deep base—gentle leading and guiding, a firm backup, bringing reminders of what the written Word states. The Godhead doesn't carry a female tone. If you heard an audio playback of a Member of the Trinity and didn't know who the voice belongs to, there would be a saying that someone with a "male" voice left a message, not a "female" voice was speaking. But Yahweh is spirit. God is spirit.

The Great Holy Spirit can relay His “personality” in the tone of His words. Trained servants who hear the Great Holy Spirit speak to them in actual words in active ways can tell by the tone of His voice if He carries warning, anger, firm ways of dealings, or great mercy. Caring ways in a gentle tone can also come forward. Yahweh does not take on human ways of walking in the flesh; instead, Yahweh shows an understanding of the daily way humans process living.

What about the Father? What can be stated to the writer to help convey this placement of Yahweh? Servant, remember in that spiritual cave when Yahweh gave a moment for you to stay and rest while Father God dealt with you? You waited and gave submitting ways. Something was very different when engaging with the Father: a protocol of entering the Throne Room and speaking with Yahweh without any filters. You were enabled to deal with Yahweh the Father in the Trinity, and His voice was not heard like “flashes of lightning and thunder” or a scary sound. You do not remember how the Father speaks with you due to how you rarely engaged with the Father in this way. But you remember the requirement of clean hands and a pure heart. You heard a “male-sounding” tone, but nothing more will be stated about hearing His way of saying. The reverence of the Father, His way of presentation, is difficult to formulate for a human to read it.

It is “holy, holy, holy.”

I bring you to think of your third visit to Heaven, how you heard and saw so many wonderful things. But remember how far away the Throne Room was.

AUDIBLE HEARING

There will be moments when speaking with any Member of the Godhead where We will dampen your way to hear. And even when King Jesus speaks, you may deal dimly in hearing and will not be able to tell it is Him. It’s all real. The Godhead speaks. And when there is a hearing that is out in natural hearing, as if Yahweh came to you in the way of

appearing in human flesh, there is a sound that fills a natural space. And Yahweh speaking in an audible way will not sound as if from behind or facing the hearer. It's similar to a room filled with heavy speakers stationed above, facing and all around the hearer with no focused placing or directional hearing. The room will be filled with the sound of what is heard.

Seersgate, remember when I gave you that dream of King Jesus coming to Earth with many angels and a great covering of many shades of clouds? You were living in sin, yet Yahweh came to you. And when We told you of a warning, you woke up. And I said with a sound that came all around you, "Be ready. I am coming back soon." And you felt silly telling your husband of this since you were in sin-filled living. But these visions and dreams cannot be kept hidden. You must speak of all Yahweh says. I will give many visions, dreams, and audible engagement, as the way is coming for the way of the reigning of the antichrist.

This note is an entryway for the people to taste what plan Yahweh moves within.
