

LACK OF RESPECT FOR KING JESUS

Houston, Texas, USA

SEERSGATE IS SPEAKING:

After the detail, I truly wanted to know what the Great King would say concerning how the people left the church service even before the pastor closed out the detail. You have to know it truly was a major lack of respect for the church way—to leave before the service is over. We're not talking about one or two needing to leave for work.

It was a Saturday night service, and large crowds were leaving to beat others out of the parking area. This church that I went to is a huge gathering, and it would seem to be a benefit to leave a few minutes early. But if they truly knew who they came to meet, there would have been a second look to show respect for the Great Way King Jesus.

If you were meeting your employer and they were speaking in a meeting that you had to attend, you would sit there and be respectful of their way. If you were meeting your favorite Hollywood movie star, actor, or politician, there would be no way anyone could make you leave their presence.

Yet with God Almighty, you show the greatest dishonor by leaving Him in the service, hoping to get outside before others. How selfish is that plan? Truly, you should not expect Yahweh to be pleased with your lack of honor. His presence is the greatest presence we should long for, yet you would place personal details and selfish ways before Him.

Some arrive late to service for valid reasons, and others truly have to leave for good ones. Some had to pay bills by working and came in to spend a moment with God, even though they had a work detail to do. They show their love for Him by saying within, "I

know that I will have to go to work, but truly, I just want to be with You, even if just a few minutes."

That is truly different than being this way: "I have to beat this crowd out of the parking lot. It is just too many people, and I don't want to wait too long; so, we will leave the service early." Others would say, "A game/TV show is coming on, and I don't want to miss it. Let's leave early."

There is truly a way that the King views how you come and meet with Him. But truly, you need to examine how you honor Him in your actions. Coming to a church service may ease your guilt for what you did the other day, but don't expect Yahweh to be pleased when you show Him a lack of respect.

This church has a great sound system. They have professional worship leaders, and the worship service has a clear musical sound, yet the whole way sitting in that service, it was indeed just hype.

I witnessed the leader come, humble himself, and serve as a minister on the prayer team. How many will do that detail? This minister, who has a leading way, leads with his redemptive gift, which draws the people. With a leading with his gift, there is no moving in the anointing.

There was a guest speaker who also ministered with the leading pastor. This minister was truly in a way to drink deeply in power, to speak words that would help any in need of a fill in the Great King. Truly see. There must be a shift in worship, where the music team brings true worship to the Great King.

Hype is a natural plan that causes people to think there is movement in spiritual ways. But with the hype, there was no moving in the power of the Great King.

I left the service still hungry to meet with Yahweh. I must note that my hunger is deep, based on how I engage King Jesus daily to get His fill, but there should be a release in these church ways that provides a truly tangible filling in God's presence.

It is now time for the Church to seek God's will and truly repent for the lack of honor to His great presence; then there will be a way made for a deep shift in that church way.

ALMOST SEVEN YEARS AFTER THE CHURCH VISIT

YAHWEH SAYS:

I want to say something. Let Me say that now, with Satan's virus plan, I have not hindered My people from coming and having private sittings with My heart. I am not stuck to one particular church gathering. I am not limited to operating in certain city limits. I AM.

But who would see My plan to bring My Body—My real Church—back, under one humble way? The ways of tradition and manmade outlets have warped how My way of church outlets are to come forward. I am sending you around the world into various regions to gain a more well-rounded view of My Church Body.

Are you tired of how there is no power coming from the Church? How about the way is made clear? For the plan of the Age of the Antichrist must come forward. Or are those in the church gatherings thinking that I will let My Bride suffer at the hands of Satan's student and his right-hand demon *Pure Evi*?

Now, I will deal with this church outlet. I have a message that will take over how church is done. Get ready. I am the One who looks at the person's heart. Always wait

upon Yahweh, and I will help you to endure all who label you as a false prophet, cult leader, heretic, and Jezebel, among other titles. But I will back My plan.

Watch, and stand with Yahweh.
